Web Fundamentals:

1. **What does WWW stand for?**
   A) Wide Web World B) World Wide Web
   C) Web Wide World D) Web World Wide
   Answer: B

2. **Which protocol is used to transmit data on the web?**
   A) FTP B) SMTP
   C) HTTP D) SNMP
   Answer: C

3. **Which of the following is a secure version of HTTP?**
   A) HTTPS B) HTTP2
   C) SFTP D) SSH
   Answer: A

4. **Which language is used to define the structure of web pages?**
   A) CSS B) HTML
   C) PHP D) SQL
   Answer: B

5. **Which is NOT a web browser?**
   A) Chrome B) Firefox
   C) MySQL D) Safari
   Answer: C

Web Servers and Applications:

6. **What is the main purpose of a web server?**
   A) Hosting videos B) Delivering web content
   C) Sending emails D) Compiling code
   Answer: B

7. **Which language is commonly used for server-side scripting?**
   A) JavaScript B) Python
   C) PHP D) All of the above
   Answer: D

8. **Which of the following is true about web applications?**
   A) They must be installed on the user's machine B) They only run offline
   C) They are accessed via web browsers D) They require Java only
   Answer: C

9. **In the request-response model, what initiates the communication?**
   A) Server B) DNS
   C) Client D) Router
   Answer: C

10. **Which file format is used for storing structured data in key-value pairs?**
    A) HTML B) XML
    C) JSON D) DOCX
    Answer: C

Front-End vs Back-End:

11. **Front-end development mainly involves:**
    A) Databases B) Server-side logic
    C) User interface D) Security
    Answer: C
12. **Back-end development typically does NOT involve:**
    A) HTML B) MySQL
    C) Node.js D) Python
    Answer: A
13. **Which of these is a front-end JavaScript framework?**
    A) Laravel B) Angular
    C) Django D) Flask
    Answer: B
14. **Which is not used in front-end development?**
    A) React.js B) CSS
    C) Java D) JavaScript
    Answer: C
15. **Which language is commonly used for back-end?**
    A) HTML B) CSS
    C) PHP D) Bootstrap
    Answer: C

Web Architecture and Storage:

16. **What is the role of DNS in web browsing?**
    A) Encrypt data B) Render web pages
    C) Map domain names to IP addresses D) Manage browser cookies
    Answer: C
17. **Which of the following can store data on the client side?**
    A) Cookies B) Local storage
    C) Session storage D) All of the above
    Answer: D

18. What ensures secure communication between browser and server?

A) FTP
B) HTML
C) HTTPS
D) TCP

Answer: C

Web Development Technologies:

19. Laravel follows which architectural pattern?

A) OOP
B) MVP
C) MVC
D) SOAP

Answer: C

20. Which of these is a templating engine used in Laravel?

A) Blade
B) Twig
C) Jinja
D) EJS

Answer: A

21. Which of these is an ORM used in Laravel?

A) Active Record
B) Hibernate
C) Eloquent
D) Sequelize

Answer: C

22. Which of the following is a JavaScript library?

A) SASS
B) JQuery
C) Gulp
D) PHP

Answer: B

23. Which is a CSS preprocessor?

A) SCSS
B) LESS
C) SASS
D) All of the above

Answer: D

Frameworks and Platforms:

24. Which PHP framework emphasizes "convention over configuration"?

A) Laravel
B) CakePHP
C) Symfony
D) Zend

Answer: B

25. Which is NOT a JavaScript framework?

A) Angular
B) Vue.js
C) Django
D) React

Answer: C

26. What is Node.js used for?

A) Database design
B) Writing HTML
C) Running JavaScript on the server
D) CSS styling

Answer: C

27. Which of the following is a build tool?

A) Vite B) npm
C) Vue.js D) HTML
Answer: A

28. What is NPM primarily used for?

A) Managing Python packages B) Hosting web servers
C) Managing JavaScript packages D) Styling web pages
Answer: C

Tools and Services:

29. Which of these is a project management tool for Agile teams?

A) Gulp B) Jira
C) Vite D) Bootstrap
Answer: B

30. Which platform allows collaborative document editing in real-time?

A) WordPress B) Notion
C) Google Docs D) Figma
Answer: C

31. What is Notion used for?

A) Coding B) Server deployment
C) Project management and note-taking D) Data analysis
Answer: C

32. Which of the following is used to manage containers?

A) Apache B) Docker
C) Python D) Git
Answer: B

33. Linux CLI is primarily used for:

A) Image editing B) Database management
C) Text-based system operations D) Video rendering
Answer: C

WordPress and Plugins:

34. What does a WordPress plugin do?

A) Creates themes B) Adds features
C) Edits core files D) Changes hosting provider
Answer: B

35. What is Elementor primarily used for?

A) Server-side scripting B) Drag-and-drop page design
C) Database configuration D) Code debugging
Answer: B

36. Elementor Plugin Development involves:

A) Creating new databases B) Modifying WordPress core
C) Adding custom widgets D) Running terminal scripts
Answer: C

Concepts and Definitions:

37. Which of these best describes MVC?
A) A programming language
B) A database type
C) A design pattern
D) A front-end library
Answer: C

38. What is the purpose of the Controller in MVC?
A) Display data
B) Handle user input and update model
C) Manage database
D) Control website speed
Answer: B

39. Dependency Injection aims to:
A) Increase coupling
B) Hard-code dependencies
C) Inject external dependencies
D) Avoid object use
Answer: C

40. Which is NOT a type of Dependency Injection?
A) Constructor
B) Setter
C) Interface
D) Bridge
Answer: D

Website and App Concepts:

41. A static website typically uses:
A) MySQL
B) HTML
C) PHP
D) Node.js
Answer: B

42. Dynamic websites usually require:
A) No scripting
B) Static hosting
C) Server-side technologies
D) Manual content update
Answer: C

43. Web applications are characterized by:
A) Minimal user interaction
B) Real-time user input
C) Static pages only
D) No databases
Answer: B

44. Which is an example of a dynamic website?
A) Portfolio page
B) News blog
C) E-commerce store
D) Contact form page
Answer: C

UI/UX and Design:

45. Which is NOT a UI component?
A) Navigation bar
B) Button
C) Typography
D) User flow
Answer: D

46. What is the main focus of UX design?

A) Database structure
B) Code efficiency
C) User experience
D) SEO ranking

Answer: C

47. Which tool is NOT used for UI/UX design?

A) Figma
B) Sketch
C) Gulp
D) Adobe XD

Answer: C

Templating & Markup:

48. Blade templates use which file extension?

A) .php
B) .html
C) .blade.php
D) .tpl

Answer: C

49. Which is a PHP template engine?

A) Jinja
B) Twig
C) JSX
D) JSX

Answer: B

50. TPL files are used for:

A) Java compilation
B) Client-side caching
C) Template logic separation
D) React rendering

Answer: C
